Over the years of working in the companies mentioned I have gained experience in multiple tools and the usage of those, have or had helped me attain the and ability to work for the needs and deeds of the organisation in Incident Management, VM and SOC.

As a Senior Cyber Security Analyst at ICF / INC Next a Tech Company which provides support for US Govt's Energy, Fed & Gov and Phaeton via Rippling which got separated a loyalty program oriented company of major Hotel Chains of the World, I was responsible for VM, SOC Alert, attending Incidents which impacts availability, FW - Whitelisting & Rules Fine Tuning. Some of the outcomes of my cyber-security efforts were to streamline VM program for better infra fine tuning and Audit Assistance.

I have attached my resume for you to learn more about my work expertise and my education qualification, are BSC in Hotel Management, +2 in ISC & 10th in ICSE.

SINCERELY,  
NEEPAK K R

### PERSONAL PROFILE

I had started my career in IT as an AR caller to technical help desk to Cyber Security. Out of the changing trends, passion and self motivation I have upgraded myself and had acquired knowledge in cyber security through self learning from multiple e-learning portals. I am currently working as a Senoir Security Analyst / Engineer in Phaedon via EmployeeTech | Rippling.

I am an enthusiastic learner and self motivated person who believes that the knowledge I acquired should be utilized to serve the society and the company I work for. I also believe there is no end to learning. Therefore, along with working I should keep acquiring more knowledge in order to keep myself updated about the latest developments in the world of IT & cyber security. Currently I am looking for a job opportunity in a company which would aid me in this passion of gaining and sharing knowledge, and would thereby take my career to new heights.
